

Kedarkantha Winter Trek

6 DAYS / 5 NIGHTS · EX-DEHRADUN · INDIA'S MOST LOVED WINTER SUMMIT

Kedarkantha is the trek that turns first-timers into trekkers. Snow-laden pine forests, frozen clearings, nights in the snow, and a summit sunrise with a 360° wall of Himalayan giants. It is achievable for fit beginners, yet thrilling enough for seasoned trekkers, which is exactly why it is India's most popular winter climb.

Day-by-day itinerary

Day 1 — Dehradun → Sankri ~1,950 m · 8–10 hr drive

Early pickup from Dehradun. A long, scenic drive along the Tons river valley through Mussoorie and Purola to the base village of Sankri. Evening at leisure; gear check and trek briefing. Overnight in a guesthouse.

Day 2 — Sankri → Juda Ka Talab ~2,700 m · ~4 km · 4–5 hr trek

The trek begins through thick pine and oak forest, climbing steadily to the frozen lake clearing of Juda Ka Talab. First taste of snow in season. Overnight in tents.

Day 3 — Juda Ka Talab → Kedarkantha Base Camp ~3,400 m · ~4 km · 3–4 hr trek

A shorter climb to the open base camp meadow with sweeping views of Swargarohini, Bandarpunch and Black Peak. Acclimatisation and an early dinner before the summit push. Overnight in tents.

Day 4 — Summit Day → Hargaon Camp ~3,800 m summit, descend ~2,900 m · ~6 km · 6–8 hr

A pre-dawn start (around 3:00 AM) for the steady climb to the Kedarkantha summit, timed for sunrise and a full 360° Himalayan panorama. Descend to camp, then continue down to Hargaon. The longest, most rewarding day. Overnight in tents.

Day 5 — Hargaon → Sankri ~1,950 m · ~6 km · 3–4 hr descent

A relaxed forest descent back to Sankri. Hot meal and a comfortable night in a guesthouse.

Day 6 — Sankri → Dehradun ~200 km · 8–10 hr drive

After breakfast, drive back to Dehradun, arriving by evening with a summit in your pocket.

Difficulty & safety — the honest bit

Kedarkantha is graded **Moderate**. It is beginner-friendly, but it is a winter, high-altitude trek: expect deep snow, sub-zero nights, and a long summit day above 3,500 m where mild AMS is possible. A few weeks of cardio prep before you come makes all the difference. Our guides carry oxygen and a pulse oximeter, keep groups small, and will always choose to turn back if the mountain says no. Your safety comes before the summit.
